MedCam Project

Preparations are underway for MEDCAM 2013, the annual meeting of the International Congress of Complementary and Alternative Medicines and Holistic Science

The meeting now at its 4th edition that will be held in Lazise, in the beautiful surroundings of the Garda Lake from October 25 to 27, has been successful in the Scientific Medical and Holistic Operators (well-being). The Congress is a unique chance to take part in a process of enrichment, comparison, listening, sharing, growth and openness. An opportunity to share and contribute to the construction and development of a therapeutic integrated, conscious, social and sustainable Way, that it always focuses on the interest and care of the whole person. The scientific program, enriched by the presence of Speakers of excellence, includes in addition to a plenary session, also important practical demonstrations sessions. It should also like to mention of the Call for Abstract, a nourished session that will allow participants to expose their own researches and methods by means of posters and oral dissertations. Among the issues we suggest certain issues of particular interest such as: Salutogenesis, Nutrition in perspective preventive and predictive PNEI, Homotossicology, Homeopathy, Acupuncture applications of Cromopuncture and DiapasonAcupuncture, Osteopathy, Integrative Medicine Oncology, Craniopuntura, Biophotons, Anthroposophic medicine, Holism and Entanglement, Energy audit, Scientific Fundamentals of Quantum Mechanics and Modern Physics applied to medicine, Environmental Medicine Clinic.

The strongly scientific accuracy wanted by the management and by the Scientific Organization makes the event unique in the national context.

The main purpose of MEDCAM is to educate to the knowledge; educate the Educators too, by comparison, deepening and the exchange on cultural and experiential.

The educator, intended as a guide for the Health of the person, is the one who works in the field of Complementary and Alternative Medicines and Holistic Science and will have, on this occasion, the chance to bring added value to the professional community and to disclose knowledge stimulating a greater awareness even in the patient who needs to be put in a position to choose an effective integration of resources of care.

3 days, 60 speakers, 20 plenary sessions, 40 sessions CFA (call for abstracts), 10 sessions, practical demonstrations, presentations of innovative biotechnology in medicine, endorsement of the institutions to club in one place all issues related to the MNC and the Holistic Science approached in their multidisciplinary nature, in order to integrate them with other sciences such as modern physics, quantum mechanics, neuroscience and biology, with the ultimate aim of rediscovering the trait d'union that links, integrates, and unites them, in the holistic view of the simple patient, and that elevates this latter like a complex human system.

Sponsored by major institutions, also sees participation as sponsors and exhibitors of important national and international brands, including Guna, Named, Natur, Adama, LifeForce Wellness Web, BlissAyurveda, Millevita Vitalogic (Austria), Papimi Enerpulse (Pulse Dynamics Ltd), BBR Bioresonance (Health Navigator LLC / Inergetix Core System), Scienza e Conoscenza
